

SPS Tech Club

September 6, 2011

Welcome to Tech Club – a group of students who desire to learn more about technology and who enjoy working with friends to create cool technology projects. Last year, we designed our own personal logos on t-shirts, video-conferenced, took apart a computer, and produced a mini-movie. Sound like fun? Join us!

Tech Club generally meets on the first Monday of the month (2:55-4:00) and we will add other days as needed to complete projects. This month, we will meet on 9/12 and 9/19 so we can work on a newscast. Students are very busy with sports, lessons, homework, etc. It is not necessary for every member to be at every meeting! If you cannot attend the meetings, just let Mrs. Bolin know so she can plan for your absence.

If you are interested in joining Tech Club, please go to www.mrsbolin.com and click on the Technology Club link. Fill out the application and click on the submit button. The maximum number of students will be fifteen. The cost of Tech Club is \$10.

Hope to see you on Monday, 9/13!

Mrs. Bolin
